

Virtual world: more and more aspects of our lives are dominated by screens, algorithms and data. Digitalisation could be a boon for climate action, but there are risks too – not least in terms of electricity consumption.

The power of information: the Wind-Pool project aims to make turbine data more useful by collecting it in a shared database.

New face, same policies: former coal lobbyist Andrew Wheeler has succeeded Scott Pruitt as head of the Environmental Protection Agency.

ENERGY POLITICS

- 3 | Editorial
- 6 | Cooperation with EREF
- 8 | News: Germany considers curbing priority dispatch, CVF announces online climate summit, Chinese bid for 50Hertz blocked, Madrid ditches sun tax, disagreement on vehicle emissions in Berlin, Germany and Hungary in court over energy sector, Ireland pledges full divestment from fossil fuels.
- 11 | “Large power producers will have to adapt or disappear”
...says European Commission vice-president Maroš Šefčovič.
- 14 | Compromise in Brussels
European institutions find common ground on energy targets for 2030.

COUNTRY MARKETS

- 16 | News: UK told to invest in renewables, problems in Indian PV.
- 17 | “The wind industry in Ontario is dead”
...says Canadian renewables expert Glen Estill.

BUSINESS

- 19 | News: Belt and Road Initiative hits stumbling block, lower earnings for Innogy, clean power investment falls.
- 20 | Hard times for turbine manufacturers
As the German wind industry struggles to make ends meet, jobs are disappearing fast – while local authorities are faced with dwindling tax revenues.

TECHNOLOGIES

- 23 | News: Sobering expansion figures for wind, Earth on course for dramatic warming, German clean power targets in reach.
- COVER STORY**
- 24 | The future is smart
Digitalisation is here to stay, but its implications for climate and the environment are unclear. From new digital tools and smart meters to cybersecurity in the power grid – are these issues we should all be taking more seriously?
- 30 | “We will never achieve 100% security”
... says cybersecurity expert Stefan Katzenbeisser.
- WIND**
- 38 | Shared knowledge
Researchers are working on a database combining information from a large number of wind turbines which they hope will transform decision-making in the industry.

ENERGY PEOPLE

- 43 | News: Claude Turmes, Camille Gira, Tilly Metz, Ben Backwell, Steve Sawyer, Ralph Danielski, Jean-François Conil-Lacoste, Knud Rissel, Gerhard Schröder, Andreas Feicht, Rudi Oss.
- 44 | More of the same?
Andrew Wheeler takes over as head of the Environmental Protection Agency.
